

MOHAMED ABDELHALIM RAMADAN ABDELHALIM

FULL STACK .NET DEVELOPER

Giza, Egypt | 01119187839 | mahamedhalemramadan@gmail.com

PROFESSIONAL SUMMARY

Entry-level Full Stack .NET Developer and BIS student graduating in 2026, with hands-on project experience using ASP.NET Core, C#, React.js, JavaScript, SQL Server, Entity Framework Core, and RESTful APIs. Trained in full-stack web development at Route Academy, with experience building API-driven applications, authentication and authorization, database-backed systems, and responsive user interfaces. Seeking a junior Full Stack .NET Developer opportunity to contribute to production software and grow within a development team.

TECHNICAL SKILLS

Backend: C#, .NET, ASP.NET Core, ASP.NET Core Web API, ASP.NET Core MVC, RESTful APIs, Entity Framework Core, LINQ

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Web Design, Axios

Database: SQL Server, SQL, Relational Database Design, CRUD Operations

Security & API: ASP.NET Core Identity, JWT Authentication, Role-Based Authorization, Swagger / OpenAPI, Postman

Concepts & Tools: OOP, MVC Architecture, Git, GitHub, Visual Studio, Visual Studio Code, Debugging, Problem Solving

PROJECTS

Save and Serve - Graduation Project | *ASP.NET Core Web API, React.js, SQL Server*

- Built a multi-role full-stack platform connecting consumers, restaurants, delivery partners, and administrators.
- Developed RESTful APIs with ASP.NET Core Web API and integrated the React frontend using Axios.
- Implemented authentication and role-based authorization with ASP.NET Core Identity and JWT.
- Created approval workflows for restaurant food-item requests and delivery-partner order requests, managed by administrators.
- Used Entity Framework Core and SQL Server for persistent data, and Swagger/Postman for API testing.

E-Commerce Web Application | *ASP.NET Core Web API & React*

- Developed an API-driven e-commerce application for products, categories, users, shopping carts, and orders.
- Implemented CRUD operations, database access with Entity Framework Core, protected endpoints, and frontend/API integration.
- Designed responsive product and cart interfaces and tested REST endpoints with Swagger and Postman.

Cardiology Clinic Management System | *ASP.NET Core MVC*

- Developed a clinic management application for patient records, appointments, visits, medical examinations, prescriptions, and history.
- Applied ASP.NET Core MVC architecture with Entity Framework Core and SQL Server and implemented core CRUD workflows.
- Created responsive interfaces to support common cardiology clinic administrative and medical workflows.

EDUCATION

Bachelor's Degree in Business Information Systems (BIS) | Expected Graduation: 2026

TRAINING

Full Stack Web Development - Route Academy | .NET, C#, ASP.NET Core, Web API, EF Core, SQL Server, JavaScript, React.js, Git/GitHub

LANGUAGES

Arabic: Native | **English:** Good
