PROFESSIONAL SUMMARY

Entry-level Full Stack .NET Developer and BIS student graduating in 2026 with hands-on experience building full-stack, API-driven applications using ASP.NET Core, C#, React.js, SQL Server, Entity Framework Core, and RESTful APIs. Trained at Route Academy in full-stack web development, with practical experience in JWT authentication, role-based authorization, CRUD workflows, database-backed systems, API testing, and responsive user interfaces. Seeking a Junior Full Stack .NET Developer role to contribute to production software and grow within a collaborative development team.

TECHNICAL SKILLS

Backend: C#, .NET, ASP.NET Core, ASP.NET Core Web API, ASP.NET Core MVC, RESTful APIs, Entity Framework Core, LINQ

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Web Design, Axios

Database: SQL Server, SQL, Relational Database Design, CRUD Operations

Security & API: ASP.NET Core Identity, JWT Authentication, Role-Based Authorization, Swagger / OpenAPI, Postman

Tools & Concepts: OOP, MVC Architecture, Git, GitHub, Visual Studio, Visual Studio Code, Debugging, Problem Solving

WORK EXPERIENCE

TECHNICAL PROJECT EXPERIENCE | Academic & Personal Software Projects

Hands-on development experience gained through graduation, training, and portfolio projects. The entries below are project experience, not commercial employment.

Save and Serve - Graduation Project | ASP.NET Core Web API, React.js, SQL Server

- Built a multi-role platform supporting **4 user roles**: consumers, restaurants, delivery partners, and administrators.
- Implemented **2 administrator-controlled approval workflows** for restaurant food-item requests and delivery-partner order requests.
- Integrated React with ASP.NET Core Web API using Axios and secured protected functionality with ASP.NET Core Identity, JWT, and role-based authorization.
- Used Entity Framework Core and SQL Server for persistence and Swagger/Postman for API testing and debugging.

E-Commerce Web API | ASP.NET Core Web API

- Developed a RESTful e-commerce API covering **5 core domains**: products, categories, users, shopping carts, and orders.
- Implemented CRUD operations, Entity Framework Core database access, SQL Server persistence, and protected API endpoints.
- Tested and documented REST endpoints using Swagger / OpenAPI and Postman.

Cardiology Clinic Management System | ASP.NET Core MVC

- Developed clinic workflows covering **6 medical and administrative areas**: patient records, appointments, visits, examinations, prescriptions, and patient history.
- Applied ASP.NET Core MVC with Entity Framework Core and SQL Server and implemented core CRUD workflows.
- Created responsive interfaces for common cardiology clinic administrative and medical tasks.

EDUCATION

Bachelor's Degree in Business Information Systems (BIS) | Expected Graduation: 2026

TRAINING

Full Stack Web Development - Route Academy | .NET, C#, ASP.NET Core, Web API, EF Core, SQL Server, JavaScript, React.js, Git/GitHub

CORE STRENGTHS

Problem Solving | Communication | Team Collaboration | Adaptability | Attention to Detail | Time Management | Continuous Learning

LANGUAGES

Arabic: Native | **English:** Good
